Hermie's TABLE SHOP

35+ New Products...

We have added 3 Double Pedestal tables, 5 Single Pedestal Tables, 3 Sawmarks Tables, a Sawmarks Hutch and Buffet, plus a variety of benches and chairs. We continue to be a table-only manufacturer, but have added chairs, benches, hutches, etc. to give you a one-stop shop for your dining room furniture needs.

Item Numbers...

Following is an explanation of our item numbering system. All item numbers begin with "HTS" which identifies that the product is from Hermie's Table Shop. This is followed by four digits which specify the category and item for each product. When placing an order for a table, find the item number at the top of the appropriate catalog page (or in the price list). This number is followed by a dash and the table size followed by another dash and the number of leaves.

For example, the item number for a 42" x 72" Bowerston Double Pedestal Table with 2 Butterfly Leaves is:

A Bowerston 60" Bench would have the following item number:

For a Bowerston 3-Door Hutch you would use the following number:

Electronic Files

If you would like to have an electronic version of our catalog, catalog images (jpg) or an Excel price list, please email designworks323@gmail.com to obtain a link to a dropbox folder where these items can be downloaded.

Exclusive Feature - Butterfly Leaves

Blue butterflies shown throughout our catalog indicate which tables can support the Butterfly Leaf Hinge. The number of butterflies shows if a table can be built with 1 or 2 butterfly leaves.

1
Pull table
apart.

2
Lift leaf and
fold in half.

3
Flip both
halves to
one side.

4
Swivel leaf
to fit below
table and
out of sight.

Exclusive Feature – Butterfly Leaves

A unique way to self-store leaves in a Single Pedestal Table!

Yellow butterflies throughout our catalog indicate which Single Pedestal tables support our exclusive Butterfly Leaf Hinge.

1
Begin with closed table.

2
Pull table apart to reveal leaf.

3
Lift leaf upright.

4
Open leaf (like a book) and lay on frame.

5
Push table together.

6
No need for the heavy box usually found underneath single pedestal tables with our one-of-a-kind Butterfly Leaf.

NOTE: Aprons are not available on Single Pedestal Butterfly Leaves

Our Butterfly Leaf is available with any single pedestal table with any table top shape in the following sizes:

48" x 48" | 54" x 54" | 42" x 54"

Butterfly Leaf is only available in 42" x 42" with following table top shapes:

Rectangular | 3" Radius Corners | Square Round | Bow End | Boat

Note:
Butterfly Leaf is NOT AVAILABLE in 42" Round tables

Furniture Care

Our number one goal at Hermie's Table Shop is to build a top quality table. All our tables are hand-built using natural resources.

It all begins with a tree. The tree is harvested, cut and milled into lumber that we turn into a large variety of tables. You will find some imperfections due to the natural growth of the tree. Every piece of hardwood furniture will have a variation in color and texture. No two pieces will ever look exactly the same.

Proper care of your furniture will ensure that it lasts a very long time.

Furniture Care

1. Keep it out of direct sunlight. This will help avoid fading.

2. Keep finger nail polish and remover away from your furniture - it will ruin the finish.

3. Don't place wet or hot dishes directly on the piece.

4. Keep out of direct heat to avoid cracking.

5. Keep the humidity in your home at 40%-50%

6. Clean with a damp cloth. If you spill something on it, it is wise to clean it up right away. We use a catalized varnish for the final topcoat to make our tables durable and water-resistant.

7. Don't push anything across the top that has sharp edges - that could scratch the table.

Single Pedestal Tables

Furniture Care

Our number one goal at Hermie's Table Shop is to build a top quality table. All our tables are hand-built using natural resources.

It all begins with a tree. The tree is harvested, cut and milled into lumber that we turn into a large variety of tables. You will find some imperfections due to the natural growth of the tree. Every piece of hardwood furniture will have a variation in color and texture. No two pieces will ever look exactly the same.

Proper care of your furniture will ensure that it lasts a very long time.

Furniture Care

1. Keep it out of direct sunlight. This will help avoid fading.

2. Keep finger nail polish and remover away from your furniture - it will ruin the finish.

3. Don't place wet or hot dishes directly on the piece.

4. Keep out of direct heat to avoid cracking.

5. Keep the humidity in your home at 40%-50%

6. Clean with a damp cloth. If you spill something on it, it is wise to clean it up right away. We use a catalized varnish for the final topcoat to make our tables durable and water-resistant.

7. Don't push anything across the top that has sharp edges - that could scratch the table.

Leg Tables

Our number one goal at Hermie's Table Shop is to build a top quality table. All our tables are hand-built using natural resources.

It all begins with a tree. The tree is harvested, cut and milled into lumber that we turn into a large variety of tables. You will find some imperfections due to the natural growth of the tree. Every piece of hardwood furniture will have a variation in color and texture. No two pieces will ever look exactly the same.

Proper care of your furniture will ensure that it lasts a very long time.

Furniture Care

1. Keep it out of direct sunlight. This will help avoid fading.

2. Keep finger nail polish and remover away from your furniture - it will ruin the finish.

3. Don't place wet or hot dishes directly on the piece.

4. Keep out of direct heat to avoid cracking.

5. Keep the humidity in your home at 40%-50%

6. Clean with a damp cloth. If you spill something on it, it is wise to clean it up right away. We use a catalized varnish for the final topcoat to make our tables durable and water-resistant.

7. Don't push anything across the top that has sharp edges - that could scratch the table.
