Natural Character & Customization

Our live edge tables showcase the unique beauty of natural wood, including occasional **worm trails and worm holes**—features that highlight the tree's organic history. These markings are purely aesthetic, as all wood is kiln-dried, ensuring no active pests remain.

For those who prefer a smoother surface, we offer the option to sand down worm trails and fill worm holes on the edge of table, creating a more refined look while preserving the wood's character. Please let us know your preference when ordering.

Fee for this service:

\$120
